What was not done

- ✗ No performance synthesised or altered.
  This line does not hold for this deliverable: see the note.
- ✗ No likeness created.
  This line does not hold for this deliverable: see the note.
- ✓ No footage or model from another job used.
- ✓ No model tuned on anyone else's work.

Two of the four lines do not hold here by design. Evie Rok is a created character, not a real person, and each image is generated from her character reference and the recorded work of *[TODO: actor name]*, who is paid, credited and consented to that use (see Rights Schedule HAL-RS-2026-001, item 1). Every post on her channels states she is synthetic and that Halation House Ltd created and operates her. No footage or model from any other job was used.
